SAGIS BOARD REVIEW  
SUMMER 2020

ANSWER SHEET

[www.sagisdx.com/education](http://www.sagisdx.com/education)

## LISTED BY SLIDE ORDER:

1. Granuloma annulare
2. Dermal duct tumor
3. Rheumatoid nodule
4. PRP
5. Desmoplastic trichep
6. Mastocytosis
7. Scalp
8. Tinea nigra
9. Lichen nitidus
10. Plexiform neurofibroma
11. CD20, bcl-6, bcl-2, CD10, kappa, lambda
12. DH
13. Warty dyskeratoma
14. Herpesvirus infection
15. Spitz nevus
16. Xanthelasma
17. Verruciform xanthoma
18. Digital myxoid cyst
19. Leishmaniasis
20. Glomus tumor
21. Molluscum and associated melanocytic nevus
22. Lichen planus
23. Steatocystoma
24. Dermatofibroma
25. Targetoid hemosiderotic hemangioma
26. Lichen sclerosis
27. Perniosis
28. Nevoid melanoma
29. Angioleiomyoma
30. Spiradenoma
31. Scabies
32. Majocchi's granuloma
33. Pilomatricoma
34. Blue nevus
35. Extramammary Paget's disease
36. Fixed drug eruption
37. Gout
38. Psoriasis
39. Scar with aluminum chloride
40. Lupus miliaris disseminatus faciei
41. PLEVA
42. NXG
43. Myofibroma
44. Lichen myxedematosus
45. Omphalomesenteric duct cyst/polyp
46. CNH
47. EPP
48. Desmoplastic malignant melanoma
49. Collision tumor of SCCIS and Merkel cell
50. Lepromatous leprosy
51. Secondary syphilis
52. Kaposi's sarcoma
53. Pemphigus vulgaris
54. Pemphigus foliaceus
55. Mycosis fungoides
56. Calciphylaxis
57. KRT1
58. 3, 5, and 8
59. Alopecia areata
60. Scleredema
61. Subepidermal calcified nodule
62. AFX
63. Bowenoid papulosis
64. Infantile digital fibromatosis
65. Granular cell tumor
66. Giant cell tumor of tendon sheath
67. DFSP
68. Spindle cell lipoma
69. Pseudocyst of the auricle
70. Nevus sebaceus
71. Schwannoma with ancient change
72. Bacillary angiomatosis
73. Metastatic renal cell carcinoma
74. Reactive perforating collagenosis
75. Morpheaform basal cell carcinoma
76. PR
77. EED
78. Sebaceous carcinoma
79. Lupus panniculitis
80. Cryptococcosis
